SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

Background:

Urban Local Bodies (ULB) were maintaining its financial statements on cash based single entry system, and accordingly there was a limitation on the flow of information and several objectives of financial and accounting controls were not met.

With a view to bring more transparency in the process and the need for better financial recording and control systems is imperative for modern-day ULBs to function as effective and efficient institutions of public service delivery. Presently, ULBs are following the single entry cash based system of accounting, which leaves a lot to be desired for in this day of need for heightened transparency and accountability in ULB decision making.

The Financial Statements are compiled with schedules, the Significant Policies and Notes on Accounts adopting the formats as per the National Municipal Accounting Manuals and in compliance with the Accounting Standards of the Institute of Chartered Accountants of India, to the extent applicable, feasible and relevant to the ULB. We have prepared the Books of accounts as per books & other relevant records made available to us by the concerned ULB and attached Financial Statements to the best of our knowledge & information available to us.

A. Significant Accounting Policies :

(a) Fixed Assets

- Fixed Assets are stated at cost of acquisition inclusive of duties taxes, incidental expenses, erection / commissioning expenses and technical know-how fees etc. upto the date the asset is put to use, less accumulated depreciation and impairment losses, if any. Further, costs of improvement are considered in the fixed assets, if such improvement results into increase in the efficiency and original estimated life of the assets.
- Machinery spares which can be used only in connection with an item of fixed asset and whose use as per technical assessment is expected to be irregular are capitalised and depreciated over the residual useful lives of the respective assets.
- The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external / internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net realizable value and 'Value in use' of the respective assets. The estimated future cash flows considered for determining the value in use are discounted to their present value at the weighted average cost of capital.
- Assets awaiting disposal are valued at lower of written down value and net realisable value and disclosed separately.
- An increase in net book value arising on revaluation is credited to a separate reserve account under the Municipal fund as 'Revaluation Reserve Account'. A decrease in net book value arising on revaluation of fixed assets is charged to Income and Expenditure accounts.
- Expenditure in the nature of repairs and maintenance incurred to maintain the asset and sustain its functioning or the benefit of which is for less than a year, is charged off as Revenue Expenditure.
- Assets recorded in the register but not physically available is written off after a period of five years
- Lands that are acquired free of cost from the government or provided by individuals or institutions under endowment for specific purposes are priced at a nominal value of Re 1 as a symbolic cost. Where the ownership of the lands has not been transferred in favour of the ULB, but the land is in the permissive possession of the ULB, such lands is included in the Register of Land at nominal value. Cost of developing such vested lands, if any, is booked under the subhead 'land'.
- Parks and Playgrounds is capitalized under two categories: (i) Land pertaining to Parks and Playgrounds including the cost of development of land that is booked under 'Land', and (ii) other amenities to Parks and Playgrounds is capitalized under the sub-head 'Parks and Playgrounds'. However, any building /structures/ plant and machinery etc. constructed/ installed in the Parks and Playgrounds and used for other purposes is booked under the appropriate heads/ sub-heads of assets
- If and when revaluation of asset is carried out, the value assigned upon revaluation of a class of assets does not result in the net book value of that class being greater than the recoverable amount of the assets of that class. Revaluation reserve is reduced by transfer of equivalent amount of depreciation charged on the revalued portion of the cost of the fixed assets.
- Statues and Heritage Assets - Statues and valuable works of art are valued at the original cost and no depreciation is charged thereon. In case, however, the original cost is not available or the items have been gifted to the ULB by some other person/ authorities, a nominal value of Re 1 is taken. Heritage buildings declared through Gazette Notification is booked under this head and is valued at book value/cost of the material date. No depreciation is charged on such buildings. In case of capital improvements after the building has been so notified, depreciation at the normal rate of buildings is charged. Wherever, the book value /cost is not available or the items have been gifted to the ULB by some other person/ authorities, the value is taken at Re 1. Material date in this case would be the date of Gazette Notification.
- Intangible assets include computer software, which is valued at cost plus cost of staff time and consultants costs incurred, in implementing the software, if any. It is capitalized, only when the intangible asset is developed, and which is used by ULB over a period of time to derive economic benefits from it. In case it is not so, the entire amount is charged to revenue, in the year in which it is incurred. The intangible assets acquired are depreciated over a period of five years or useful life, whichever is earlier.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

B. Notes to Accounts

The figures mentioned in the balance sheet are subject to verification & confirmation from the respective documents & departments of the ULB.

Creation of Municipal General Fund

Preparation of Opening Balance Sheet as on 01.04.2008/2011 was the starting point for conversion of the accounting system of municipality from cash to accrual basis and from single to double entry system, which required municipality to determine the value as on that date, of all the assets and liabilities belonging to the municipality. Under the accounting system followed by the municipality so far, no formal ledger was maintained and consequently no balances of assets and liabilities were carried over. Moreover, no concept of Equity/Propriety/Municipal Fund was there in existence. But for opening balance sheet purpose municipality identified assets and liabilities as on 01.04.2008/2011 and excess or otherwise of opening balances of assets over opening balances of liabilities was recognized as Municipal General Fund as per relevant accounting guidelines provided in NMAM

Cash at Bank

Cash balance represents the physical cash as per the cash books maintained in the ULB and the cash in transit i.e. cheques issued by the Secretariats Office but not accounted at the ULB level.

The Bank Balances as appearing in the balance sheet are subject to reconciliation in the cases where Bank statements / confirmations are not available. Also Interest on FDRs are not accounted for as the information not made available to us.

Bank Reconciliation Statement (BRS) has been prepared for all the bank accounts of the ULB as on 31ST March, 2018 for which banks passbook / statements were made available to us. Necessary adjustments on account of unadjusted items, if any, will be carried out in the financial statement of subsequent periods. Related supporting of particular accretion were annexed

Fixed Assets

- The cost of the assets transferred received as a gift has been considered as Rs. 1/-.
- The Assets considered in the financials are mainly the assets in active use provided by the Accounting Units and current year additions.
- Accumulated Depreciation has been provided on the Opening Assets Balance.
- Where cost of acquisition is available but the date of addition is not available, these have been considered as current year addition and in case where only the year of addition is available, addition has been considered as being made on 1st April of that year and appropriately depreciated.
- Fixed Assets includes assets which have been leased out on 99 years lease by the ULB.

NAGAR PALIK NIGAM KORBA
SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

Realization of Debtors

- The collection details as per the "demand patrak" does not reconcile with the collection as per cash book. As such the closing balance of the receivable also differs to that extent.

	As per tally	as per demand patrak
Receivable for property tax	351880079.27.00 Rs.	349198000.00 Rs.
Receivable for samekit tax	23237485.04 Rs.	23194000.00 Rs.
Receivable for water tax	14055238.03 Rs.	13517000.00 Rs.

Stock in Hand (Inventories)

Inventories represent stock of materials lying with the Panchayat as at the end of the financial year.

Contingent Liabilities

As per the information provided by the ULB and on the basis of documents reviewed by us in the preparation of the Opening Balance Sheet we did not come across any such information which needs to be disclosed as a contingent liability.

Other Liabilities (Sundry Creditors)

- This represents amounts payable (including Accounts Payables) towards expenses as well as statutory dues remitted after the Balance Sheet date.

Tax Revenue

This schedule represents collection of tax levied by the ULB. Income is accounted for on accrual basis for the year

Grant Register

Grant register is not properly maintained and updated by the ULB regularly, so reconciliation of the balance is not possible and necessary adjustment cannot be made.

Identification and Determination of Opening Balances of Assets and liabilities

- Under the accounting system, followed hitherto, by the municipality, no ledger accounts were being maintained with respect to fixed assets acquired /constructed by the municipality. Instead all the capital expenditure incurred were directly charged to Receipts & Payments Statement, the only annual accounting statement prepared by the municipality and consequently no balance were carried forward in respect of assets currently under the control of and in active use by the municipality. Since the municipality has adopted accrual accounting for the first time, there were often difficulties in compiling comprehensive information on the existence and valuation of assets. Thus, while preparing these financial statements, as per the guidelines and formats provided in the NMAM, the municipality has taken into account available historical cost less accumulated depreciation of all the assets that howsoever came into the knowledge of appropriate authority of municipality. Any asset which has been acquired free of cost or in respect of which no payment has been made from own fund is recorded at nominal values of Re. 1.
- In case of liabilities, same environment, as stated above, was prevailing hitherto and all the capital / loan / deposit receipts directly and fully credited to receipts and payments statement in the year of receipts. The amount repaid if any was charged in the year of payment in an isolated way without updating the status of outstanding dues of lending institutions including interest and penal interest charged by them, at municipality level. Different items of liabilities incorporated in these financial statements are identified and determined from various documents / records which are subject to confirmation/reconciliation and consequent modifications if any.
- These being the ground realities, there might be possibility that these financial statements may not cover assets / liabilities existing at the balance sheet date, if any, but unknown to the appropriate authority of the municipality. To that extent, these financial statements are not showing true and fair view of state of affairs as on reported date.

Suggestions

- 1 Write a full description of voucher in narration like nature of expenditure, location of expenditure,name of fund used for payment etc
- 2 In narration cheques no. will be compulsory in case of E-payment, write E-payment
- 3 Each voucher should be a proper voucher number
- 4 Grants adjustment should be done bill wise with voucher number
- 5 All entries should under Chart Of Account (COA)
- 6 If revenue expenditure code 2 was credited and revenue income was debited please varify
- 7 If capital receipt and liabilities has debit balance on closing basis please varify
